

Browser Cache Dump Quick Reference

Clearing Cache in Google Chrome

Open the Google Chrome browser and click on the WRENCH in the top right corner of the browser window, then choose **SETTINGS**.

Click here.

At the bottom of the browser window, under **DEFAULT** browser, click on **SHOW ADVANCED SETTINGS**.

Default browser

The default browser is currently Google Chrome.

[Show advanced settings...](#)

Click here.

Under **PRIVACY** click the **CLEAR BROWSING DATA** button.

Default browser

The default browser is currently Google Chrome.

Privacy

[Clear browsing data...](#)

Click here.

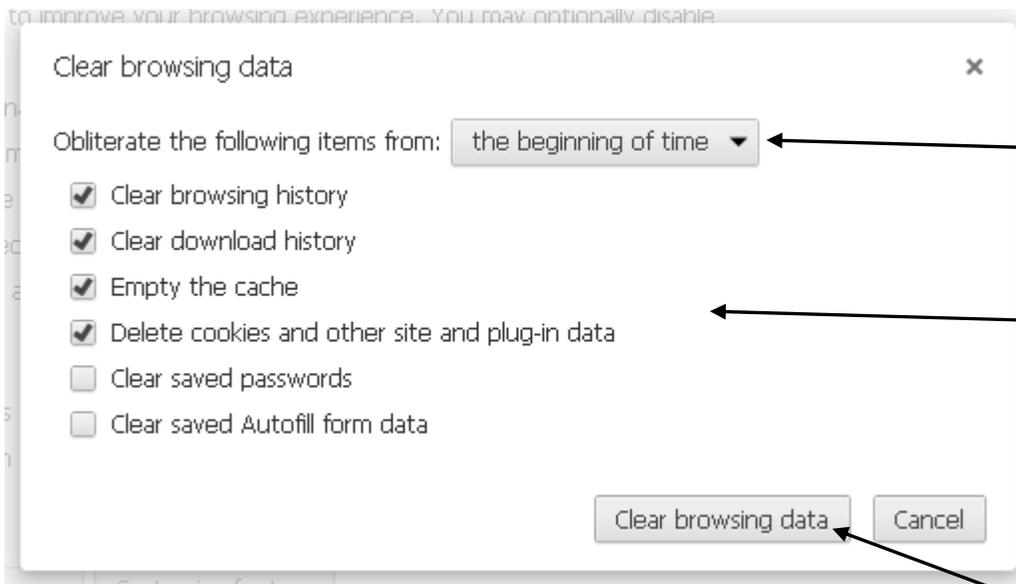

Google Chrome may use web services to improve your browsing experience. You may optionally disable these services. [Learn more](#)

- Use a web service to help resolve navigation errors
- Use a prediction service to help complete searches and URLs typed in the address bar
- Predict network actions to improve page load performance
- Enable phishing and malware protection
- Automatically send usage statistics and crash reports to Google

Passwords and forms

- Enable Autofill to fill out web forms in a single click. [Manage Autofill settings](#)
- Offer to save passwords I enter on the web. [Manage saved passwords](#)

When the dialog box below appears, choose your preference from the drop-down menu, and make sure the four items below are checked, then click CLEAR BROWSING DATA.

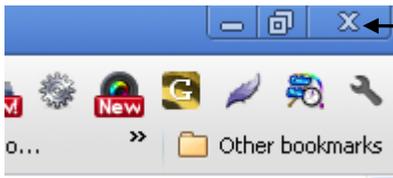

Choose your preference from the drop-down menu

Make sure these four items are checked

Then, click here

The dialog box above will disappear when the browsing history has been deleted and the Chrome Settings page will re-appear. Click the 'X' in the top right hand corner to exit.

Click here

Go to the browser page you were trying to see changes on and click the refresh button.

Click on this icon to refresh the page.

NOTE: If you were having trouble seeing your changes, you should see your changes now. If not, please try viewing your changes in another browser, on another computer or on a mobile device if that is an option. Clear your browser cache. If that still doesn't help, please contact your Agency's PC/LAN Tech for assistance.
