#### 6.0 STANDARD

This standard supports the requirements of EITS and State agencies as identified in the Executive Order, dated May 25, 1999, Computer Software Piracy.

- 6.1 The agency is responsible for overseeing agency compliance with Federal copyright statutes. Agency management is responsible for ensuring compliance with the terms of all software licenses, establishing and monitoring inventory procedures for all the agency's software and certifying in writing, compliance with this standard. Software compliance is a legal responsibility for state agencies and non-compliance can impact an agency, as they may be held financially liable for unlicensed copies.
- 6.2 Only state agency authorized software shall be installed or used on state-owned or leased hardware. The use of unlicensed software copies (software used in violation of the software license), or agency-unauthorized software is strictly forbidden.
- 6.3 Each agency shall establish and maintain a software inventory to track and control all applicable software media, licenses or end user license agreements, certificates of authenticity, documentation and related items.
- 6.4 All agencies shall establish and maintain a software library or libraries to control access to all media, licenses or end user license agreements, certificates of authenticity, documentation and related items. This library or libraries shall be located in a secure area. The library shall include all copies of media and at least one copy of the manual and other documentation.
